- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

3.2 AESTHETIC IMPRESSION/ SITE DEVELOPMENT PLAN

1. Introduction

The presentation of a site development plan for approval is compulsory in terms of clause 13, 14 and 15 of the Emalahleni Land Use Management Scheme, 2020 as Amended. The aim of this is to ensure co-operation and dialogue between the developer and the Council at an early stage of the development of the site.

This procedure will ensure that the developer has a clear view point from the start as to the prevailing rights on the site, including development control, urban planning and urban design, as well as the traffic aspects. The process will ensure that all possible problems will be solved when the final building plans are handed in.

The protection of the rights of the public and the physical environment are of great importance to Council. Site development plans are one method to ensure that the Council fulfills its oversight task towards the public and the physical environment.

The approval of a site development plan can be seen as the Council's acceptance of the proposed development. The responsibility lies with the developer to comply with the design concept, included in such a plan, in accordance with the present development control conditions and bylaws of the Council.

The presentation and consideration of site development plans does not serve to restrict liberties. This is rather an attempt to ensure a better environment, with co-operation between the Council and the developer.
