#### A.190/22-23 ADJUSTMENT BUDGET FOR THE 2022/2023 FINANCIAL YEAR:

**REPORT** from the Executive Mayor.

#### Acting Chief Financial Officer.

#### PURPOSE:

To request Council's approval for adjustment of the 2022/2023 Medium-Term Revenue and Expenditure Framework in terms of Section 28 of the Municipal Finance Management Act, Act 56 of 2003 (as amended).

#### BACKGROUND:

Council approved the Operational and Capital Budget for the 2022/2023 financial year under item A.127/21-22 dated 26 May 2022. On 25 January 2022, a mid-term year Budget and Performance assessment report was submitted to the Office of the Executive Mayor, and subsequently submitted to Provincial and National Treasury. The mid-year Budget assessment resulted in the revision of the municipal budget.

Section 28 of the Municipal Finance Management Act, Act 56 of 2003 (as amended) states as follows:

- (1) a municipality may revise an approved budget through an Adjustment Budget;
  - (a) an Adjustment Budget must adjust the revenue and expenditure estimates downward if there is material under-collection of revenue during the year;
  - (b) may appropriate additional revenues that have become available over and above those anticipated in the Annual Budget, but only to revise or accelerate spending programme already budgeted for;
  - (c) may within a prescribed framework, authorize unforeseeable and unavoidable expenditure recommended by the Executive Mayor of the municipality;
  - (d) may authorize the utilization of projected savings in one vote towards spending under another vote;

- (e) may authorize the spending of funds that were unspent at the end of the past year, where the underspending could not reasonably have been foreseen at the time to include projected rollovers when the Annual Budget for the current year was approved by Council;
- (f) may correct any errors in the annual budget;
- (g) may provide for any other expenditure within a prescribe framework; and
- (h) An Adjustment Budget must be in a prescribed format.

#### EXECUTIVE SUMMARY:

The format and the content of the Adjustment Budget and the supporting documentation must be in a format specified in schedule B of the Municipal Budget and Reporting Regulation. The Adjustment Budget as submitted herewith contains the applicable Adjustment Budget Schedules tables B1 to B10 and are attached as Annexure "A".

The Adjustment Budget is based on consultative process with municipal Departments, which were held in December 2022 and January 2023. The Budget Steering Committee considered the adjustment budget on 6 February 2023. The expenditure and revenue trends from July 2022 to January 2023 were used for forecast.

Below is the Mid-term assessment which was key in preparing the adjustment budget for 2022/2023 financial year:

The above table reflects the financial performance of the municipality for the mid-term, which can be briefly summaries as the following:

- The year-to-date operating revenue as at the end of the second quarter amounts to R1,9 billion and reflects an unfavourable deviation of 6% when compared with the year-to-date budget of R2,1 billion.
- Operating expenditure as at the end of second quarter to an amount of R2,097 billion was spend against the year-to-date budgeted expenditure of R2,098 billion and reflects an unfavourable deviation of 0,03% when compared with the year-to-date budget of R2,098 billion.
- Year-to-date capital expenditure as at the end of the second quarter (Mid-term) amounts to R82,9 million, and it reflects an

unfavourable deviation of 37% when compared with the capital expenditure year-to-date budget of R131,1 million.

• Average payment rate as at 31 December 2022 was 60% against a budgeted payment rate of 70% approved in original budget 2022/2023 budget.

It is against the above revenue and expenditure patterns which has led the municipality to prepare an adjustment budget to align the revenue to current revenue patterns were necessary, to fast track the implementation of expenditure on items that are service delivery driven, revenue enhancement focused as well as providing for the re-prioritization of capital budgets. The midterm period posed the municipality with a serious conundrum as the projected revenue spiral downwards while the expenditure is increasing.

#### DISCUSSION AND MOTIVATION FOR AN ADJUSTMENT BUDGET:

The application of sound financial management principle for compilation of the Emalahleni Municipality's Adjustment Budget is important and critical to ensure that the municipality becomes and remains financially viable and that the municipal services provided are sustainable, economically and equitable to all communities. The municipality is currently implementing MFRP (Municipal Financial Recovery Plan) and the Revised Budget Funding Plan with the intention of turning around the financial viability and cost effectiveness of the municipality. However, when taking the midterm results into consideration it shows that the intended results have not yet been realized.

The Emalahleni municipality's business and service delivery priorities were reviewed as part of 2022/2023 Adjustment Budget process. Where appropriate, funds were transferred from low to high priority programme so as to maintain sustainability of service delivery.

This adjustment budget posed a serious challenge when it was drafted as the municipality is battling with high unemployment rate, mushrooming of illegal connection on electricity and water services, the after effects of COVID-19 which caused most businesses to shut down.

A post mortem to get the cause as to why the revenue has not increased is currently being conducted, with the assistance of a specialist from National Treasury. Just to name few amongst other causes are as follows:

- Most of the properties used for business but zoned as residential were not changed to correct zoning;
- Land audit also found properties used for mining activities but still zoned as agriculture and that has not been resolved;
- The issue of zero sales on more than 20000 residential properties has not been resolve, hence there is less revenue of electricity while the bulk purchases is increasing;

- Unmetered properties add to the distribution losses as consumption is not accounted for; and
- Low payment rate by Emalahleni consumers which has a direct impact on the funding of the budget.

Although the revenue budget is adjusted downwards, Management has adopted a stringent approach to ensure that revenue enhancement strategies are implemented through the Revised Budget Funding Plan and the Financial Recovery Plan. The approach includes the following:

- Re-establishment and reinforcement of the Revenue Enhancement Committee, which will sit once per week;
- Monthly Municipal Finance Implementation Programme and Budget Funding Plan meeting to ensure the implementation and accountability;
- Report to Council on the monthly basis on the progress of the implementation of the Budget Funding Plan;
- Continuous reconciliation of a Valuation Roll to the financial system;
- Ensure that all properties are zoned correctly and aligned with the activities conducted on that property;
- Audit and replacement of dysfunctional/non-existing electricity and water meter;
- Management of the cashflow on a daily basis with weekly reporting to the Municipal manager;
- Engage top creditors to develop a payment arrangement and signed payment plans;
- Re-enforcing credit control by executing cut-offs on non-paying customers; and
- Reduce cost on overtime and standby.

The original budget had a surplus (revenue is more than expenditure). This was achieved through the following budget assumption:

- Reduction of distribution losses which should have reduce the Eskom bulk purchases;
- Engagement with creditors especially Eskom to reduce the interest charged;

- Increase in revenue for service charges; and
- Increase payment rate which reduces the debt impairment.

However; the surplus has evaporated during this adjustment budget as the revenue was adjusted downwards and the expenditure adjusted upwards. The reasons for the decreases and the decreases in the revenue and expenditure will be discussed later in the paragraphs.

Appropriated budgets on most of the service delivery line items were almost depleted by mid-term period. Budget for these line items are used to address challenges in the municipal infrastructure as well as resolving interruptions on services delivery. The following are some of the line items which have depleted:

- Maintenance of roads and potholes Emalahleni area has experienced heavy rains and storms within the first half of the financial year. Roads were badly affected and a lot of potholes emerged;
- Maintenance and reticulation of electricity Due to substations that are damaged as a result of overloading and cable theft;
- Transportation of water through services of water tankers contractors This was a result of water shortages within the area of Emalahleni. Also there are areas that had pipes burst and caused interruptions in supply of water, then water tankers are use to supply water while pipes are being fixed; and
- Material and stock supply Most of the challenges mentioned above also have an impact on stock and material kept at municipal stores. E.g. pipe burst and maintenance of electricity and water infrastructure need material when they are fixed.

The rise in expenditure is triggered by the above-mentioned challenges on services delivery. However; it is not only limited to that, the increase can also be as a result of departmental heads not firmly controlling expenditure especially on the use of contractors. If the increase on these expenditures is not seized, then the municipality might not be able to honour its commitments especially salaries. Consequence management must be implemented where expenditure is not properly monitored. The line items for these expenditures must be controlled as unauthorised expenditure is mostly realised on them.

The unfunded budget position will preserve even in this adjustment budget due to low payment rate, high creditors (Eskom debt) expenditure patterns and revenue that is not improving. It must be noted that a good financial position is not only dependant of high revenues but also maintaining a good and prudent expenditure position. Hence a management of expenditure is extremely important. For the financial position and status of the municipality to improve and change for better the following strategies and assumptions which are part of the Budget Funding Plan are adopted:

- The implementation of the cut-offs on illegal and non-paying of consumers by both internal staff and service providers;
- Ensure that all billable properties are billed. Especially areas that are currently not billed;
- All consumers and municipal residents eligible for indigency status are registered as indigents;
- Continuous and enforcing auditing of meters and replacing nonfunctional meters for electricity and water;
- Reducing and controlling distribution losses on both electricity and water;
- Firmly management of expenditure especially employee related cost (overtime and standby);
- Limiting and managing the use contractors. Internal resources or labor be used instead of contractors;
- Employment of suitable and qualifying personnel;
- Debt collection through legal firms;
- Strengthening and re-enforcing of the Credit Control Policy;
- Payment of services campaign awareness;
- Payment rate of 70% to be maintained;
- Service Delivery Departments were prioritized;
- Conducting cleaning campaigns by municipal personnel around Emalahleni area; and
- Enforcing the "KHOKHA KUZOLUNGA" campaign.

Section 18(1) of the Municipal Finance Management Act, Act 56 of 2003 (as amended) states that the Annual Budget may only be funded as follows:

- Realistically anticipated revenues to be collected;
- cash-backed accumulated surplus from previous years; and
- Borrowed funds, but only for the Capital Budget referred to in Section 17(2).

The main challenges experienced during the compilation of the 2022/2023 Adjustment budget can be summarized as follows:

- Ongoing challenges in the national and local economy;
- preparing an Adjustment Budget that is unfunded;
- preparing an Adjustment Budget with a deficit balance due to an increase in debt impairment and Eskom interest;
- Increase of maintenance line items;
- High distribution losses on electricity and water; and
- Community resistant when doing cut offs to defaulting consumers.

Average payment rate as at the end of January 2023 is at 61%. The original Budget was prepared on a payment rate of 70%. Projected payment rate will

remain unchanged at 70%, taking the above-mentioned adjustment budget assumptions into considerations.

Should there be an additional revenue and actual cash collected above the anticipated, the municipality will direct most of the additional funds to creditors or liabilities.

#### **OPERATING REVENUE:**

The following table reflects the approved 2022/2023 MTREF, the proposed Adjustments Budget and the adjusted columns for revenue:

The above table indicates a total operating revenue budget of R4,1 billion for the 2022/2023 Adjustment Budget. This reflects a decrease of R126,7 million

or 3% when compared to the approved original revenue budget for 2022/2023 of R4,2 billion.

The following revenue sources were adjusted:

The midterm period reflects a decline in the property rate revenue. However, Property rates revenue remains unchanged due to the following:

- Most of the properties used for business but zoned as residential are in the process to be zoned correctly;
- Land audit also found properties used for mining activities but still zoned as agriculture and that has not been resolved; and
- Properties valued in terms of multiple usage of Section 9 of the Municipal Property Rates Act, Act 6 of 2004.

The municipality will continue resolving the zoning issue as well as the Valuation Roll and the financial system to ensure that all properties within Emalahleni municipality are billed for property rates.

Revenue budget for electricity has been reduced will an amount of R125,1 million. The issue of 20,000 zero sales has not yet been reduced as this will have had a positive impact on electricity revenue in the 2022/2023 financial year.

A turnaround strategy has been adopted to ensure that these zero sales is detailed and given priority on the Financial Recovery Plan and Revised Budget Funding Plan. The municipality is currently implementing cut-offs on non-payment of services, as well as disconnecting illegal connection to the municipal grid. Some residents have been arrested and more will be arrested as the campaign is being intensify since beginning of January 2023.

- Water revenue budget has been decreased by R38,2 million. Exercise of replacing water meters has not been implemented as initially planned. The process of replacing meter has started and the Law Enforcement Officers are now part of the team to assist with law enforcement.
- There is a direct correlation water and sanitation revenue, hence the is also a decrease on sanitation budget with an amount of R10,9 million.
- Refuse revenue will remain unchanged. Rates and refuse billing are linked, the properties mentioned under property rates will also yield a positive revenue for refuse.
- Rental of facilities budget has been reduced by an amount of R4,4 million when compared with the original budget.

Implementation and corrections on some of the land audit was delayed.

- Dividend budget has not been changed. Initially on the budget the budget for this line item was included in the interest received line item.
- Budgeted interest earned on external investments will increased by R2,3 million. As there is slow implementation on some of the grants, the unspent funds are accumulating interest as they are banked on call accounts. However, this grants fund must be spent as they were meant for service delivery to the citizen of Emalahleni municipality, if they are not spent then National Treasury will draw them.
- Interest on outstanding debtors increased by R45,9 million. The upward adjustment can be directly linked to the consumer debtors that is currently at R7,0 billion.
- Fines and penalties budget have been adjusted upwards to R30,1 million from R26,5 million. There are more fines realized during midterm period, the revenue patterns call for an increase on the budget.
- Revenue on licensing and permit has been decreased from R0,5 million to R0,4 million. The reduction is due to bringing it in line with current trends.
- Revenue budget of Agency Services was adjusted downward with an amount of R2,8 million.
- Budget for operational transfers and subsidies remained the same as in the original budget.
- Capital transfers (monetary allocations) budget will increase with an amount of R3,0 million to cater for the following:
  - Rollover of the Provincial Treasury financial assistance funds amounting to R4,0 million.
  - The municipality has already received letter from National Treasury to withdraw the Neighbourhood Development Programme Grant amounting to R1 million.
- The in-kind line items remained unchanged.
- Other revenue increased with an amount of R0,1 million when compared with the original budget of R62,8 million. Some line items were adjusted in line with the mid-term assessment results.

- Total revenue decreased with an amount of R126,7 million in the adjustment budget.

Table B1, B2, B3 and B4 reflects the adjusted revenue budget which amounts to R4,1 billion and are attached as **Annexure "A".**

The total adjusted operating expenditure amounts to R4,8 billion which shows an increase of R575,1 million compared to the original budget of R4,2 billion.

- No changes where effected on the employee related cost, as the expenditure is still in line with the original budget. But it must be noted that vacant budgeted positions where funded through the proposed reduction on overtime and standby which has not materialized when taking the midterm period into account. The appointment of new officials and overtime must be monitored so that there can be no overspending of the budget.
- Consequence management will be applied on Departments that have overspent on their budget, unless there is a valid reason. Appointment on vacant positions will be prioritized to service delivery related positions, as well as positions that became vacant due to death and resignations.
- No adjustment on Remuneration on Councillors.

- Budget on the provision for doubtful debt has been increased from R737,2 million to R764,7 million. The increase caters for the debts to be written off on the consumers accounts as well as the fines to be written off. These expenditures were not provided in full during the 2022/2023 budget.
- Depreciation budget remained unchanged.
- Finance charges includes interest for loans and interest on creditors. Budgeted interest on Eskom account has been changed to bring it in line with current trends. Budget for finance charge has been increased with an amount of R145,6 million. The strategies of reducing the interest on Eskom debt has not materialize.
- The budget for bulk purchases has been adjusted upwards from R1,2 billion to R1,5 billion. Electricity losses has not reduced as anticipated. As at the end of December 2022 financial losses on electricity were over R200,0 million. If the amount is projected for the year then losses for the year will be R700,0 million which is more than the previous year losses of R719,8 million. April, May and June months are still approaching which are considered to be high seasons on electricity consumption.
- Losses has a direct impact on the monthly bill charged by Eskom, if losses reduce then the lesser the monthly bill and vice versa. The exercise of reducing losses will have to be intensify.
- Other materials have been adjusted upward from R146,7 million to R196,3 million. The main contributor to the increase is bulk purchases of water. The demand of water has increased as at the end of January 2023 the bulk purchases of water amounted to R74,4 million and when the expenditure is projected for the whole financial year the expenditure will be in excess of R148,0 million. The remaining increase can be attributed to stores materials especially on electricity and water material.
- Contracted services were increased with a net amount of R42,9 million. As it was mentioned in the above discussions that most of the appropriated budgets on most of the service delivery line items were almost depleted by mid-term period. Budget for these line items were or are used to address challenges in the municipal infrastructure as well as resolving interruptions on services delivery.

The major increase was on the following line items:

 Maintenance of roads and potholes. Roads badly damaged as a result of heavy rains.

- Maintenance and reticulation of electricity. Due to substations that are damaged as a result of overloading and cable theft as well as shortage of workforce and qualifying personnel.
- Transportation of water through services of water tankers contractors. Due to water shortages and water cuts as a result of a fault in the system.

Although there is an increase on contracted services a thoroughly review of contracted services is conducted to determine the necessity of the services.

- Transfers and subsidies remain unchanged.
- Losses were adjusted upwards with an amount of R7,4 million. This is to cater for losses that might be identified at the end of the financial year.
- Budget for other expenditure was adjusted downwards by R13,8 million, to bring it in line with the current trends.

Table B4 reflects the adjusted budget on financial performance revenue by source and expenditure by type.

The total revenue decreased to R4,1 billion and the total expenditure increased to R4,8 billion. This result in a net deficit of R685,6 million.

The decrease in revenue poses a serious challenge as it calls for a corresponding decrease in expenditure. However, the expenditure had already been reduced with the original budget, as it was informed by revenue enhancement strategies as well as cost curtailment. But the reduction has not be achieved. And a further decrease in expenditure can hardly be achieved as it may halt service delivery and increase unauthorized expenditure at year-end.

Most of the remaining expenditure items are either statutory (e.g. bulk purchase, employee cost and finance charge) or contractual (e.g. security services, provision of financial system services). Cost curtail strategies must be enforced and implemented so that in a long term a surplus balance or budget can be achieved.

#### CAPITAL EXPENDITURE BUDGET:

The capital expenditure budget amount has been decreased from R262,3 million to R261,1 million. The reduction is due to the withdrawal on the Neighbourhood Development Programme Grant amounting to R1 million.

There was adjustment within the Municipal Infrastructure Grant and other grants projects to provide for the re-prioritization in line with a project implementation turnaround strategy.

The schedule of capital budget showing the adjustment is attached as Annexure "B".

Table B5 provides details on budgeted capital expenditure whilst B9 provide for the asset's management. The capital budget has decreased from R262,3 million to R261,3 million.

#### CASH FLOW BUDGET/CASH BACKING AND SURPLUS RECONCILIATION:

The table below provides details on the budgeted cash flow position for the 2022/2023 financial year. The adjusted budgeted cash flow reflects a surplus of R33,6 million. The surplus is mainly supported by applying a payment rate on expenditure. In terms of cashflow the municipality will not be able to cover all expenditure as reflected in the financial performance statement, however all cash collected will be used to cover expenditure. It must be noted that cash collected will be limited to budgeted collection rate. With this approach of applying a payment rate on expenditure, it suggests that the municipal liabilities will increase as not all accrued expenditure (financial performance) will be paid.

The expenditure has been cut to the bone, and bulk of the expenditure (80%) are fixed cost (e.g. employee related cost, Councilors remuneration, bulk electricity and water, finance charges from Eskom). The fixed cost exceeds the total revenue inclusive of national grants. The only remaining option is to improve revenue and collection rate, as well as reduce electricity and water losses.

Table B6 under **Annexure** "**A**" provides a detailed Adjusted Budget on the financial position of the municipality. The adjusted community wealth of the municipality amounts to R4,1 billion and the budgeted total asset amounts to R10,6 billion and budgeted total liability amounts to R5,6 billion.

Table B8 under **Annexure** "**A**" assess whether the municipal budget is funded or unfunded. The adjusted budget is unfunded with an amount of R3,0 billion. The unfunded position is as a result of high liabilities, low revenue levels and high debt impairment which are caused by a low collection rate. As it has been mentioned before revenue enhancement and management strategies needs to be seriously enforced to turn an unfunded budget to a funded budget. The implementation of the Revised Budget Funding Plan be accelerated, as this will improve the municipality financial viability over a longer period. The Revised Budget Funding Plan is attached as **Annexure** "**B**"

<u>Refrences</u>

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes

2. Total Revenue by standard classification must reconcile to Total Operating Revenue shown in the Adjustments Budget Financial Performance (revenue and expenditure)

3. Total Operating Expenditure by standard classification must reconcile to Total Operating Expenditure shown in the Adjustments Budget Financial Performance (revenue and expenditure)

4. All amounts must be classified under a standard classification (modified GFS). The GFS function 'Other' is only for Abbatoirs, Air Transport, Markets and Tourism - and if used must be supported by footnotes.

Nothing else may be placed under 'Other'. Assign associate share to relevant classification

5. Only complete if a previous adjusted budget has been approved in the same financial year. Reflect most recent adjusted budget.

6. Additional cash-backed accumulated funds/unspent funds (MFMA section 18(1)(b) and section 28(2)(e)) identified after the Original Budget approved and after annual financial statements audited (note: only where underspending could not reasonably have been foreseen)

7. Increases of funds approved under MFMA section 31

8. Adjustments approved in accordance with MFMA section 29

9. Adjustments to transfers from National or Provincial Government

10. Adjusts. = 'Other' Adjustments proposed to be approved; including revenue under-collection (MFMA section 28(2)(a)); additional revenue appropriation on existing programmes (section 28(2))(b); projected savings (section 28(2)(d)); error correction (section 28(2)(f))

11. G = B + C + D + E + F

12. Adjusted Budget H = (A or A1/2 etc) + G

#### MP312 Emalahleni (Mp) - Table B5 Adjustments Capital Expenditure Budget by vote and funding -

#### <u>Refrences</u>

1. Municipalities may choose to appropriate for capital expenditure for three years or for one year (if one year appropriation projected expenditure required for yr2 and yr3).

2. Include capital component of PPP unitary payment. Note that capital transfers are only appropriated to municipalities for the budget year

3. Capital expenditure by standard classification must reconcile to the appropriations by vote

4. Must reconcile to supporting table SB7 and to Adjustments Budget Financial Performance (revenue and expenditure)

5. Only complete if a previous adjusted budget has been approved in the same financial year. Reflect most recent adjusted budget.

6. Additional cash-backed accumulated funds/unspent funds (MFMA section 18(1)(b) and section 28(2)(e)) identified after the Original Budget approved and after annual financial statements audited (note: only where underspending could not reasonably

7. Increases of funds approved under MFMA section 31

8. Adjustments approved in accordance with MFMA section 29

9. Adjustments to transfers from National or Provincial Government

10. Adjusts. = 'Other' Adjustments proposed to be approved; including revenue under-collection (MFMA section 28(2)(a)); additional revenue appropriation on existing programmes (section 28(2))(b); projected savings (section 28(2)(d)); error correction (section 28(2)(f))

11. G = B + C + D + E + F 12. Adjusted Budget H = (A or A1/2 etc) + G

<u>Refrences</u>

1. Include a measurable performance objective for each revenue source (within a relevant function) and each vote (MFMA s17(3)(b))

2. Include the estimated effect on the target of each component of an adjustment budget (B to G)

3. Include all Basic Services performance targets from Table A10 to ensure Table SA7 represents all strategic responsibilities

4. Total target adjustments G = B + C + D + E + F

5. Adjusted Budget H = (A or A1) + G
